## MAJOR LARRY HOSFORD DIES IN VIETNAM

### Green Beret Camp Throws Back Cong Attack Today

By JACK WALSH

SAIGON UPI — The battered Green Beret camp at Thuong Duc threw back a Communist assault today and U. S. paratroopers trapped about 200 guerrillas on a nearby peninsula, military spokesmen said.

UPI correspondents Nat Gibson and Raymond Wilkinson reported no American casualties in the action erupting near the bastion coastal city of Da Nang.

To the north, U. S. B52s struck North Vietnam in the heaviest bombing raids in nearly a month and smashed southern panhandle supply lines in explosions that sent smoke almost a mile high.

Smaller jets found a break in the monsoon weather and joined the Monday attack, flying the 139 missions against the panhandle.

In South Vietnam, government spokesmen reported one of the heaviest outbursts of Communist terror action in recent weeks.

Civilians killed

In the three days Viet Cong terrorists killed 23 South Vietnamese killing eight persons after bursting into a party 265 miles northwest of Saigon, killing six more in a bombing 100 miles below the capital and killing nine more in blowing up a minibus 67 miles southwest of the capital.

Twenty-one other civilians were injured in the attacks. Around Saigon itself U. S. troops battled small guerrilla units and seized arms possibly intended for a Friday blow during the capital's independence day holiday.

At Thuong Duc, the Beret camp that withstood a two-week North Vietnamese siege earlier this month, Gibson said the Communists today struck before dawn. He said a similar attack was repulsed Monday.

On a rocky peninsula 15 miles northwest of Saigon, Wilkinson reported U. S. Navy boats and South Vietnamese soldiers joining men of the Army 101st Air-

borne Division in trapping the 200 Communists.

Wilkinson said a Communist captive told interrogators his comrades had not eaten in three days. The airborne commander told Wilkinson his men would try psychological warfare leaflets to get the Reds to surrender. If that failed, the allied force would charge in, Wilkinson said.

Bomb North

The Da Nang action came as more U. S. planes thundered overhead, hitting North Vietnam.

The spokesmen called it the heaviest raiding of North Vietnam since Oct. 3, before the diplomatic world reported intense Hanoi-Washington negotiations on an American bombing halt to ease the way toward a peace conference.

The Stratofortress bombs triggered at least 27 secondary explosions. It was a sign they hit fuel tanks and ammunition depots. Smoke rose more than 4,000 feet.

The smaller jets hit 44 supply boats, two bridges plus other targets as trucks and warehouses.

The B52s also struck repeatedly against Communist positions northwest of Saigon, near the Cambodian border.

Around the capital, U. S. forces killed at least 29 guerrillas Monday and captured enough arms to equip a Viet Cong battalion.

The fighting near Saigon raised to more than 200 the guerrillas slain in the area the past several days. In the latest fighting, American losses were reported as one man killed.

### Letter To Editor

Dear Jim:

I am no oratorical whiz and my writing ability leaves a lot to be desired but some times it becomes necessary to express your feelings and get the weight off your chest.

Most of the universities and schools in our nation are having a great deal of trouble with a minority of their students who are raising a lot of H-I, but if you ask them one particular thing they want, you can not get an articulate answer.

I became involved with some of the students at Murray State when we were invited to participate in their Homecoming Parade, and found every one with whom I came in contact to be wonderful kids whose only desire is a good education, and to become solid citizens and leaders in this great country of ours.

I have participated in many more parades than I care to remember and I have yet to find one that was coordinated any better than the Homecoming Parade last Saturday. I participate like to congratulate the Chairman of the Homecoming Committee Mike H. Reid and his able assistants for a difficult job that was very well done. We enjoyed participating in the parade last Saturday and hope we will be invited back again next year.

Jim, on behalf of the Murray Calloway County Shrine Club I would like to take this opportunity to thank you, and the staff of the Ledger Times for the help you have given us in the past year.

Sincerely,  
William E. (Bill) Moffett

### Is Fourth Man From County To Lose Life In Conflict

The war in Viet Nam claimed the life of a fourth Calloway County son Sunday when Major Larry D. Hosford of Murray died from injuries that he received in a raid. No details of the incident have been received thus far.

Prior to Major Hosford's death, Calloway County had lost Lt. James Scarborough, killed in a helicopter training mission in the United States, Billy L.

Lauffer, victim of a Viet Cong machine gunner, and Pfc Gary Wilkinson, who was killed in action when struck by a friendly mortar round.

At the time of his death Major Hosford was assigned to the Joint Military Staff Headquarters Military Assistance Command in Saigon.

He is survived by his wife Patsy and daughter Mary Beth, and his parents Mr. and Mrs. Kirby Hosford of Murray. Four brothers also survive him, Billy Joe of Bloomfield, Indiana and Hal, Kenneth and Keith of Murray.

Major Hosford graduated from Murray State University, receiving his commission as a Second Lieutenant after graduation. He was a member of the Sigma Chi social fraternity, Scabbard and Blade Honorary Society and the Industrial Arts Club. He returned to Murray State and earned his Masters degree in 1966.

Major Hosford was a member of the Church of Christ and participated in the activities of the church.

Major Hosford worked at the Ledger and Times as a Linotype operator while he was attending Murray State University, working all the time that he attended college.

His rise in the military after graduation was rapid. He spent some time at the Army Ordnance and proving grounds at Aberdeen, Maryland and quickly received his First Lieutenant's bars, then his Captain's bars. This year he was promoted to the rank of Major.

Mrs. Hosford said that she spent some time with her husband while he was on his R&R leave. He appeared to be in good health at that time, she related, however he was very tired. His work in Saigon caused him to be on duty from ten

to twelve hours a day, she said.

Major Hosford had many friends here in Murray and Calloway County where he was born and raised. He was endowed with a determination to succeed and by the time he was in the army for a year, he had experience in four careers from which to choose, the Army, as a teacher, as a Linotype operator, and in the field of machinery and ordnance.

Major Hosford made friends wherever he was located. His outgoing personality, friendliness, and consideration, made him popular with whomever he was associated.

Both his parents have been ill for some time, especially his mother who has suffered from a heart condition. Major Hosford specified in his personal file that his wife only was to be notified in the event of an emergency. He felt that his wife then could cushion the blow to his parents, especially his mother.

His ability in the Army was recognized early and he received rapid promotions and in 1966 he returned to Murray as a Captain to obtain his Master's degree. After completing his degree, he was then returned to Aberdeen and later was sent to South Viet Nam.

Six or seven days is normally required to return a body from South Viet Nam to Murray. Arrangements have been complete pending arrival of the body here.

### MAJOR LARRY D. HOSFORD

THE war in Viet Nam "came within blocks" of Murray yesterday when the news arrived that Major Larry Hosford had been killed in Saigon.

The anguish that struck in the midst of his family here can never be fully realized, however we had some idea how they felt, because we knew Larry well.

He worked here at the Ledger and Times while he was going to Murray State University. Larry had great determination and although he had opportunities to work, he saw clearly that he must gain an education. He proceeded to earn his Bachelor's degree, working at night to make the money necessary to pay for his education.

Through his advance ROTC work, he graduated as a Second Lieutenant. His ability, personality, initiative and friendliness drew the attention of his superiors and he quickly climbed the ladder of promotions and this year was made a Major.

We talked with Larry about his future and pointed out to him that he had forged four careers for himself, any one of which could be remunerative both financially and otherwise. He was an expert Linotype operator. He earned his teacher's certificate. He could enter the field of machinery and ordinance, or he could choose the Army as a career. Adding to his experience in the Army and to his education by obtaining his Masters degree, Larry further strengthened his future and his career possibilities.

He was one of the finest young men we have ever had the privilege of knowing.

The utter wastefulness of war and the great drain on our young manhood is epitomized completely by this unfortunate death.

Our sympathy is extended to his family, his wife, and to his many friends.

## ELECTIONS TO WATCH

Leroy Collins. Rep. Edward Gurney

IN FLORIDA, Rep. Edward Gurney is given a good chance of beating popular former Gov. Leroy Collins to become the state's first Republican senator since reconstruction days. Collins, a decade ago one of the most popular governors in Florida history, has a strike or so against him for civil rights mediation activity for President Johnson. Even some Democrats think Collins will lose to Gurney.

## ELECTIONS TO WATCH

Gov. Warren P. Knowles. Bronson C. LaFollette

IN WISCONSIN, Bronson C. LaFollette, state attorney general with probably the longest political pedigree of any candidate in the country, is trying to unseat Gov. Warren P. Knowles, but not given much chance because the Democrats are in deep deep trouble. LaFollette, 32, is the grandson of Robert "Righting" Bob LaFollette, who was governor, senator, and Progressive Party presidential candidate. One of his sons was a senator for 21 years. Another was a three-term governor. Now young Bronson seeks to become the youngest governor in Wisconsin history.

## Veterans Questions and Answers

Q — My wife and I are both veterans with full G.I. loan eligibility. The home we want to purchase will require a loan of \$50,000. Our lender says he won't make us a G.I. loan in this amount unless the VA will guarantee \$25,000 of the loan amount. Can we combine our entitlement of \$12,500 each to do this?

A — Yes, provided the VA determines the reasonable value of the home is at least \$50,000. It would also be necessary, of course, that the family income be sufficient to handle the mortgage payments and other family expenses.

Q — I am confused about the new pension law as it applies to Social Security payments. Do I have to include these payments in estimating my 1969 income on the annual VA income questionnaire? If so, will the higher payments next year result in a reduction in my VA pension?

A — Public Law 90-275 says that you will not have your VA pension reduced in 1969 because of higher Social Security payments. However, you DO have to include your Social Security benefits in the estimate of your 1969 income. The annual VA income questionnaire will be sent to you a month early this year, around Nov. 1 instead of Dec. 1. You must return the questionnaire to VA a little earlier than in the past, by Jan. 15 rather than Jan. 30.

## NORTH FORK NEWS

By Mrs. R. D. Key

October 24, 1968

Bro. Billy Gallimore preached at North Fork Sunday morning. He and his family were dinner guests of Bro. Vaden and family. Janet McGee of Paris was also the weekend guest of the Vadenes.

Mrs. Ella Morris, Zipora Morris, Howard Morris, Mr. and Mrs. Gaylon Morris, Mr. and Mrs. Ralph Gallimore, and Billy Joe Harding were dinner guests of Mr. and Mrs. Oman Paschall Sunday. Afternoon visitors were Janet McGee and Mrs. A. D. Vaden.

Bro. and Mrs. Terry Sills and children of Fredonia, Mrs. Ella Morris, Howard Morris, Zipora Morris, and Mr. and Mrs. Douglas Vandyke. This woman was emotionally disturbed. So are millions of other "normal" drivers every day as a result of personal experiences on or off the highway, a survey by the Family Economics Bureau of Northwestern National Life Insurance Co. reveals.

These drivers currently are being exposed for their complicity in the death of 1,000 people a week on U.S. highways.

The survey quotes authorities who estimate that up to 80 per cent of traffic accidents are caused mainly by the emotional conditions of drivers.

People even commit suicide with their cars, says J. Stannard Baker of the Traffic Institute of Northwestern University. Baker wrote the first textbook on traffic accident investigation and has investigated thousands of fatal accidents. He estimates that five per cent of traffic fatalities (2,655 people in 1967) are suicides or victims of suicide drivers.

Exactly the same estimate was made, independently, by Dr. Robert Litman of the Los Angeles Suicide Prevention Center. He has interviewed thousands of suicidal drivers. Motor vehicle suicide rarely is mentioned publicly because few traffic officers know enough about engineering and physics to distinguish a suicide crash from an accidental crash, the Northwestern National Life survey found.

Mr. and Mrs. Clerris Wilson and Mr. and Mrs. Maburn Key visited Mr. and Mrs. Keith Perkins in Covington, Tenn., on Sunday.

Bro. and Mrs. Warren Sykes and children, Susan and Mitch, were the dinner guests of Mr. and Mrs. Edd Hudson on Sunday.

Mrs. Ella Morris and daughter, Zipora, Mr. and Mrs. Oman Paschall, Mrs. Bertie Jenkins, Mr. and Mrs. Larry Orr, Mr. and Mrs. Gaylon Morris, and Mr. and Mrs. Warren Sykes visited Mrs. R. D. Key Thursday afternoon.

Adolphus Paschall was in Paris, Tenn., Tuesday to see Dr. Jones. He is not feeling so well.

Mr. and Mrs. Henry Sykes visited Mrs. Marcus Hill in Paris on Sunday. She has just returned home from the Memphis hospital after having undergone surgery.

Mrs. Sallie Owen visited Mrs. R. D. Key Monday afternoon. Tony Sykes spent the week end with his parents, Mr. and Mrs. Henry Sykes. Tony is in school at Sykes, Tenn.

## Almanac

by United Press International  
Today is Tuesday, Oct. 29, the 303rd day of 1968 with 63 to follow.

The moon is between its first quarter and full phase.

The morning stars are Mercury, Mars and Jupiter.

The evening stars are Saturn and Venus.

On this day in history: In 1918, units of the German fleet at Kiel began a mutiny in demand for peace negotiations with the allies.

In 1923, Turkey became a republic.

In 1929, the stock market collapse continued, billions of dollars of open market values were lost and the stage was set for the great depression.

In 1940, Secretary of War Henry Stimson, drew a number from a fish bowl — and the first peacetime draft was started.

## No Time To Drive When You Are Emotionally Disturbed

What makes people act this way?

"Normal individuals" under stress usually are antagonistic, impulsive and openly aggressive; despondent; or absorbed in their problems, reports the American Medical Association's Committee on Automotive Injuries and Deaths.

Near Los Angeles recently, a 30-year-old man whose friend jilted him tried to side-swipe a car, screaming at the driver, "What's the matter — are you afraid to die?"

The car lunged into the opposing lane. Traffic parted and flowed past the car like water around a ship's bow, until the head-on collision. The driver of the other car died.

In the hospital the jilted lover, broken jaw supported by wires, scribbled on a scratch pad, "Let me die."

The assertion that suicide accidents occur is supported by Dr. John F. Edlund of the University of Missouri School of Medicine. Four drivers in 11 fatal Kansas City accidents that he studied had histories of suicidal threats and attempts; and three drivers threatened suicide shortly before their fatal accidents.

Forty patients who attempted suicide or homicide, or both, by auto were discovered by Dr. John M. MacDonald, associate professor of psychiatry at the University of Colorado School of Medicine.

In a five-year study supported by the U.S. Public Health Service, Dr. Alfred E. Mooley of Harvard Medical School found that in 14 of 124 fatal accidents selected at random evidence pointed to suicide or attempted suicide by automobile.

What can be done to reduce the number of lives lost to emotion?

A promising option is being tested by two University of Michigan professors. Dr. Donald C. Peiz and Dr. Stanley H. Schuman have prepared a series of two-minute film clips that depict emotion-charged driving or pre-driving situations.

These "trigger films" produced by the University's Television Center, are shown to groups of normal young adults who might then leave their car temporarily stressed. The films "trigger" discussion of safe ways to handle emotion.

Discussion leaders ask for alternative reactions. Instead of accepting a challenge to race, a driver COULD accelerate faster to get away from the car.

The Federal Aid Highway Act of 1968 requires states to evaluate drivers suspected of emotional instability. Driver licenses could be denied until applicants.

A driver's emotions — anger, depression, fear, elation and others — impair his perception and delay or block his reactions. He may look directly at a stop light, then drive through it, or fail to see a car emerging with his traffic lane.

Emotion is a drug. It inhibits the brain's decision-making and risk-taking processes. Drugged by anger, a driver bent on revenge will take risks Grand Prix racing champions avoid. Dr. Ward Edwards, University of Michigan psychologist, found.

One California driver whose judgment was paralyzed by emotion aimed his car for a head-on collision. Everyone but him, in both cars, was killed.

Why did he do it? "I wanted to teach the — I dimed his lights when he sees a car coming toward him," he said from his hospital bed.

Drivers arrogantly seize the right-of-way by using the threat of collision as a weapon; their cars explode from crosswalks, bumper to bumper with challengers, trailing a blue haze of vaporized rubber and exhaust fumes; and they leapfrog from lane to lane, while knuckled, hunched over the steering wheel, for the sake of two or three car-lengths advantage.

When only "qualified" people

are allowed to drive, said Jason Branch, chairman of All state insurance, at the Traffic Safety Research Symposium, "then we begin to attack the root causes of soaring increases in the number of accidents."

Dear Abby

## Mother-in-law Is a Sneak Thief

By Abigail Van Buren

DEAR ABBY: My problem is what to do with a thief when she is your own mother-in-law?

Every time she comes to our house, she steals towels, pictures, clothing, and little knickknacks you can buy for 50 cents.

I had about \$50 saved up which I kept in an old wallet in my drawer. After the old lady was here, the money was missing. My 6-year-old said, "Grandma took it." We're sure she did, but when we ask her about it, she doesn't know from nothing.

When we go to HER house we see all the stuff she's carried away from our place. When we ask her where she got it, she says, "Someone gave it to me."

I'm all for taking an empty suitcase over there and retrieving our belongings, but the wife says no. If this keeps on, we'll have to move in with the old lady. What do you make of this, and what would you do?

NO NAME, PLEASE

DEAR NO NAME: I would guess that the woman has become mentally unbalanced. I wouldn't leave anything of value around where she can get at it, and I would keep a sharp eye on her when she visits. P. S. Meanwhile, you might start "stealing" back what is yours. Then let mother-in-law squawk.

DEAR ABBY: I can certainly sympathize with the divorcee who is tired of fighting off every man who takes her out. I am an widow with the same problem. They all sing the same tune, "What do you have to lose?"

I finally hit on a perfect solution. When a supposedly "fine" eligible bachelor took me out to dinner recently and then bluntly propositioned me, I said, "I'd love to. My price is \$500."

After he regained his composure he took me straight home and I never heard from him again.

LAST LAUGH

DEAR ABBY: The public school my children attend has just built a swimming pool. The boys have certain hours to swim and so do the girls, and they are going to have regular swimming classes.

The boys have just been told that they are expected to swim in the raw! I don't know what the other boys thought of this, but my son didn't care for the idea as he isn't comfortable when he's nude with other boys. He didn't say anything to the coach because he didn't want to be ridiculed.

I think whether the boys should swim with or without swim suits should have been decided by the parents as this is a public school which will be paid for by our taxes. I would like your opinion. My son is an average 14-year-old lad. Thank you.

TAXPAYER

DEAR TAXPAYER: The parents should have been consulted. But your "average 14-year-old lad" had better overcome his shyness about nudity in the presence of other boys or he is apt to be uncomfortable much of his life.

CONFIDENTIAL TO THE TWO SINCERE SERVICEMEN IN THE USMC IN VIET NAM: Sorry, but I'll continue to knock it without trying it. The official word is as follows: Studies of 2,213 drug addicts treated at the public health service hospital in Lexington, Ky., show that 79.4 per cent of the patients began with MARIJUANA. Does that suggest something to you?

Everybody has a problem. What's yours? For a personal reply write to Abby, Box 6706, Los Angeles, Cal., 90069 and enclose a stamped, self-addressed envelope.

FOR ABBY'S BOOKLET, "HOW TO HAVE A LOVELY WEDDING," SEND \$1.00 TO ABBY, BOX 6706, LOS ANGELES, CAL., 90069.

Chops Creole

Pork chops creole are an easy-to-make, tangy main dish, delicious with rice. Brown 4 pork chops in a lightly greased skillet. Stir into the pan drip-tings. 1 cup of tomato juice, 1 (1-ounce) envelope of onion gravy mix, 1/2 cup of water, 1/4 cup of chopped green pepper and 1/4 teaspoon of chili powder. Cover and simmer 45 minutes. Makes 4 servings.

### Queen Already Gift Shopping

LONDON (UPI)—The Christmas gift list of Britain's Queen Elizabeth has 700 names on it. So she has already started shopping for presents.

During her fall vacation at Balmoral Castle in the Scottish Highlands, she looked through catalogues from several London stores and marked her selections for her lady-in-waiting to place orders.

The queen gets gifts for 28 children, friends in scores of countries she has visited during her world tours, and members of all the other European royal families. Most of them are relatives. She shops personally for family presents in December.

Extra early Christmas preparation is so that many of the packages and cards can be posted in November, the month the queen will be away on a state visit to South America.

With her characteristic thoroughness, the queen means to make sure everything is in order before she leaves.

### Calloway High FTA Council Holds Meeting

The Calloway County Chapter of Future Teachers of America held its regular monthly meeting, Thursday, October 24, in the music room. The meeting was called to order by the president, Rita Farris.

Mary Janice Morton, secretary, called the roll. Twenty-three members, eight officers and the sponsor were present. The minutes of the last meeting and executive council meeting were read by the secretary. The treasurer's report was given by Dortha Jackson, the newly appointed treasurer.

The members were reminded to wear their FTA pins to every meeting or pay a fine to the treasurer. As new business, the members were given the dates of February 18 and 21 to work in the concession stand for which they will receive merit.

The treasurer announced the decision to sell candy between the Thanksgiving and Christmas vacation as the first money-making project of the FTA.

Kathy Stubblefield, vice-president, was in charge of the program which was a review of the fall district meeting. The devotion was given by Brenda Bennett. The various activities of the day were given by Wanda Garrett, Cynthia Cooper, Mary Janice Morton, and Ruth Ann Barrow who attended the workshop.

Sofer Floors

SAN FRANCISCO (UPI) — Special ceramic tile floors for hospital operating rooms have been developed which will protect against the buildup of static electricity which might cause explosion of anesthetics.

Standards recently published by the U.S.A. Standards Institute spell out the materials, workmanship and mortar to be used. They meet safeguards for flammable anesthetics established by the National Fire Protection Association.

Arthritis Victimized

SAN FRANCISCO (UPI) — More than \$300 million a year is spent by arthritics on worthless and sometimes harmful treatments, "cures" and devices, says Dr. Wallace Epstein, of the University of California Medical Center.

These include such nostrums as filtered sea water, so-called "immune" milk, honey and apple vinegar combinations, alfalfa tablets, glorified aspirin, health spas, magnetic rings and copper jewelry.

Feeling the Bill

UTRECHT, Holland (UPI) — Dutch parents annually spend \$35 on clothing and footwear for their children up to 15 years of age. Nearly half that amount goes for the three pairs of shoes the kids use up on the average.

The Rosenberg Library in Galveston, Tex., was the state's first free public library.

More than 40 million pounds of shrimp are harvested each year by shrimp boats working out of Texas ports.

Accidents in the home took 28,500 lives in 1967, says the National Safety Council.

## DOWN CONCORD WAY

By ESTELLE SPIELAND

October 21, 1968

People make mistakes when they envy those who live in nice new homes.

"It takes a heap o' living" in a house to make it home," Edgar A. Guest said.

And after a house holds a heap of memories, it's dearer than the unused one.

As for me, I'm going to envy the lucky ones who ever rent the rooms on the Concord Corner which we have vacated.

The Earl Webbs sold their beautiful home near the former Hobart Dunn Hilltop farm to the Brent Saddlers of Tennessee recently. Both families are assets to a community.

We are sorry that Mrs. Burman Ferguson who started driving a school bus is in Vanderbilt Hospital for treatment.

And our sympathy is extended to new comers here, Mr. and Mrs. Johnny McClure from South Dakota moved to near the Aubrey Farm.

Mrs. Lila McClure was informed that a brother in Oregon had undergone surgery for a brain tumor. The McClures have gone to Oregon to see this brother.

Mr. and Mrs. Guy Lovins, retired from grocery business, have been enjoying fish supper the past week with cabin dwellers, the Lester Lesis and two other couples from Sikeston, Missouri, vacationing on the lake.

We are glad to report that Mrs. Otis Lovins who has been hospitalized for two weeks with a heart attack is improving.

The hospital seems full to running over with patients. We are sorry for all of them.

We count our blessings after visiting there and at the nursing home, knowing that sooner or later, most of us, if we live, will have our turn there.

We visited Mrs. Stella Ahart and Mr. and Mrs. Gardie Lassiter at Westview, and also found that Irvan Fari was seriously ill there.

There are more pleasant places to visit these lovely autumn days, but nowhere is a bit of cheer needed more.

He's Widely Sought

YOKOHAMA, Japan (UPI) — Yokohama maritime police say they have arrested one of the most widely traveled thieves in the world.

Police identified him as Philip Felix Dardaine, 37, a native of Trinidad and Tobago, who they said had been sought by his native country, as well as Holland, Sweden, Italy, Belgium, Switzerland and West Germany. He was arrested on a charge of attempted theft aboard a ship.

KPS WORKING TO INFORM MOTORIST OF "IMPLIED CONSENT"

Frankfort—Kentucky's Implied Consent Law has taken its toll among drinking drivers who refuse to submit to a chemical test, as 157 Kentucky drivers' licenses have been revoked since the law became effective in June.

Under the law a motorist is deemed to have given consent to a chemical test—blood, urine or breathalyzer—to determine his blood-alcohol content if he is arrested by an officer who has reasonable grounds to believe the motorist is driving while intoxicated.

After an arrest on this charge, the officer will request the motorist to submit to a chemical test. Refusal to submit results in a six-month license suspension.

When notified of his suspension, the motorist has 10 days to appeal to the Department of Public Safety. Of the 14 appeals to date, 12 suspensions were upheld, one relief granted and one appeal went to Circuit Court.

Because the law is considered an effective "tool" in dealing with the drinking driver, the Kentucky State Police, in cooperation with the Division of Drivers Licensing, are working to erase problems caused by lack of knowledge about the law.

KSP officers and other law enforcement officials have been attending an Implied Consent Law course in conjunction with Eastern Kentucky University. The course includes training in the use of breathalyzers, instruments for determining if a motorist is intoxicated.

Thirty-two one-week courses are designed to train over 470 KSP officers by May 1969. By then breathalyzers will be available for use by any law enforcement agency at every county seat and many police stations through Kentucky.

The KSP are also conducting needling throughout the state to familiarize judges, attorneys, local law officials, and interested citizens with the Implied Consent Law.

"We are concerned to hear from many motorists they were unaware there is a law requiring them to submit to a chemical test when arrested for driving while intoxicated," says Lt. Roger L. Wilhoite, who, as Director of Drivers Licensing Division, presides over each appeal hearing.

The law states: Whether the person was informed that his privilege to drive would be revoked or denied if he refused to submit to the test shall not be an issue.

## Same Wheels For Snow Tires

CRANSTON, R.I. (UPI) — Those studded snow tires you took off your car last winter may not be too reliable this year unless you remember what wheels they were on.

E. S. Harding, Executive Vice President of the Automobile Club of Rhode Island (AAA), reports the studs wear at a slight angle and this causes them to lie over to one side. Much of the effectiveness of the studs will be lost this winter if the tires are replaced to travel in the opposite direction.

Also a danger, Harding said, "is if the tire direction is reversed the holes in the tires will become enlarged so that some of the studs may be thrown out."

If you don't remember how your studded tires came off, Harding suggests that come winter you check with your local service station. The mechanic will be able to determine the proper location.
